ALOIS FREY
FREESIA SPECIALIST
13345 HUBBARD AVE.

SAN FERNANDO, CALIFORNIA, U. S. A.

March 29, 1923

Mr. D. N. Shoemaker,
Horticulturist,
U.S. Dept. of Agriculture,
Washington, D.C.

Dear Sir:-

In response to your request of Jan. 3rd I take pleasure in submitting in duplicate the following list of new varieties of freesias of my own origination, and which I am placing on the market this year.

CALIFORNIA - A large flower of a bright golden yellow, extra fine strong growth and long stems; one of the very finest yellow freesia.

CARMENCITA - medium sized flower of a beautiful light orange-salmon hue with buff shading on the lower petals. Long wiry stems.

AURORA - A large flowering yellow suffused with orange.

CARRIE BUDAU - A lavender pink, a great improvement over Gen. Pershing, larger flowers and heavier stems; an enormous grower and producer.

ILENA - Deep rosy lavender with white throat, deep orange blotch on lower petal and good stiff stems. Flower large and very attractive.

JUNE MICHELSEN - Large flowering deep rose pink with light blush throat, three lower petals are veined purplish crimson with a deep yellow blotch on center petal. Good stiff stem and strong constitution. A variety of special merit.

OLIVETTE - Bright carmine red with light yellow throat, lower petals having a deep yellow blotch with crimson veins. Very profuse bloomer.

These varieties are placed on the market at \$20.00 per thousand.

Very truly yours,

AF-L

Alois Frey

P. S. Prices are strictly wholesale.
